## **New Matte Polyester Films for Hot Stamping Foil Applications**

We are glad to announce that SMP has excellent matte films for hot stamping foil industries. During last two years, our new matte films have been qualified for various hot stamping foil applications and conditions very successfully.

We call them to 'HMF Series' and HMF series are composed of many combinations of thickness and gloss as follows.

Thickness: 60, 65, 75, 92ga

Gloss: 18 (Super matte), 38 (Regular Matte)

HMF series have replaced 377 and 378 products in the marketplace with incomparable economic value and performance.

If you need technical data or sheet samples, please go to 'Contact' in this website. We will get back to you soon.
