SKC Announces Price Increase

Dear Valued Customers:

Thank you for your ongoing commitment and trust in SKC Inc. over the years supplying you quality PET films. Recent increases in raw material, delivery cost and operational costs have had a drastic impact on the PET film market, forcing us to make some price adjustments. In order to continue providing our customers with excellent technical support and customer service, a price increase will be implemented on all films types. This increase will be effective 03/15/2018, with all shipments on and after this date.

We greatly appreciate your business and support of this necessary change.

Best regards,

D Jones Signature

Daryl Jones

Director of Sales
