100% recyclable Shrink film - SKC EcoLabel

SKC has a new solution to recycle shrink films. SKC EcoLabel is the world's first fully recyclable shrink film, which is 100% recyclable film with washable ink that keeps PET flakes clear for reprocessing.

SKC Ecolabel obtained recognition from the Association of Plastic Recyclers (APR), one of the biggest recyclers in the US, for exceeding their Critical Guidance Document requirements. The APR has tested SKC EcoLabel and proved the full recycling process.

For further information about our SKC Ecolabel, please watch our YouTube video at <https://www.youtube.com/watch?v=QKKqQmCZfpQ>
