SKC is introducing deluxe product packages for Photovoltaic applications.

One of the most recent development focus of SKC is products for Photovoltaic (Solar Cell) applications. We offer a full package of films and sheets for photovoltaic assembly as follows.

EVA Sheets: Encapsulation

Films for Backsheets

Clear PET films (10~14 mils)

Black PET films (2~7 mil)

White PET films (10 mil)

Hydrolysis-resistant PET films

UV Stable PET films

PVDF films

Polyimide Films for Flexible Solar Cell Panel

SMP is a master distributor of PV application products in North America. If you need product brochures of photovoltaic product as above, please go to 'Contact' section in this website.
